

Dear Documented Vessel Owner,

This survey is a part of an ongoing effort by the *California Department of Boating and Waterways* to better serve the California boating public. Previously, recreation boaters up and down the State were surveyed regarding boating needs in the Sacramento-San Joaquin River Delta. Documented vessel owners, such as yourself, were not a part of that earlier survey effort. If the Delta is an area that is important to you, we would appreciate your input to help us determine what types of facilities or improvements might need to be developed in the Delta and where they may best be located. Even if you have never boated in the Delta or boat there infrequently, we would like to hear from you.

Your responses will be confidential and used only for statistical purposes. The results will be compiled for us by the planning team of *The Dangermond Group* and *Research Network Ltd.*

Thank you for your help!

Sincerely,

Raynor Tsuneyoshi  
Director  
California Department of Boating and Waterways
