and

**Friday April 9, 2004
11:00 am
Council Chambers
City of Carpinteria, City Hall
5775 Carpinteria Avenue
Carpenteria, CA 93013**

Workshops are being scheduled for the Monterey Bay area, San Francisco Bay area and Humboldt Bay area in April and May. Workshops in other coastal areas have been completed. See the website below for details on future workshops as they become available.

These workshops are for the purpose of obtaining comments from the public, including representatives of public agencies, private and non-profit organizations, and interested individuals, as the Sediment Master Plan process is being initiated. The Sediment Master Plan is being prepared by the State of California Resources Agency and the U.S. Army Corps of Engineers. The Sediment Master Plan focuses on developing an implementation strategy for integrated, region-wide solutions to sediment management problems. Examples of the issues to be addressed by the Sediment Master Plan are beach erosion and excess sedimentation in coastal wetlands and harbors.

The two workshops are to allow added convenience to Santa Barbara and Ventura County residents and coastal interests who are interested in learning about and commenting on the Sediment Management Plan.

Visit the Sediment Master Plan website for details: www.dbw.ca.gov/csmw.htm
