

HOUSEHOLD HAZARDOUS WASTE

FACT:

Topside and anti-fouling paints, wood preservatives, lacquers, solvents, batteries, used oil, zinc anodes and out-of-date flares are typical hazardous wastes generated by boaters. Some are suspected carcinogens and all are toxic to humans and aquatic life.

GOAL:

Dispose of hazardous waste properly. Call 1-800-CLEANUP (253-2687) or visit earth911.org to find hazardous waste disposal locations near you.
